

NEW SEARCH SERVICES PROVIDED BY BEACHBAY PROPERTIES

In search of buying a property in the area of Bahia de Banderas? As most people do, we begin with a search of listed properties in specific areas within other criteria (price, bedrooms, beachfront etc.) This approach is quite straight forward, but when done from time to time with varying criteria the results may lead to confusion. Perhaps more important, without regular "runs" you are not accessing updated information of new properties or changes to existing ones.

We have a great automatic solution for you to keep abreast of the market within your specific search. Provide your criteria and we will set up a personal and private account where you will have access to all the properties listed that match your requirements. Also you will be automatically informed of any changes or new properties within your search. It is so easy and reliable, **contact us and Try It ! info@beachbay.mx**
